

Heavy-Duty Rear Light Assemblies

- Heavy-duty steel modules, designed for rear frame mounting
- Available in two and three light models
- Full component protection, designed for long-life reliability
- 7 gauge steel band extends 1/2" beyond the light mounting surface to protect lights and wiring
- Sealed-beam lenses are rubber-mounted for shock resistance to extend bulb life
- Easy to replace bulbs, no special tools required
- HD Rear Light Assemblies are used to meet or exceed FMVSS 108
- All wiring designed with heat-shrink wire connectors
- Recommended for use with all bed-height rail liftgates and Tuckunder® type liftgates
- Available for all foreign or domestic chassis
- Perfect for aftermarket or OEM specifications
- Lights come completely assembled for easy weld-on installation
- White powder coat primed finish
- Designed for vertical post or horizontal (under frame) mounting
