

ANTHONY LIFTGATES, INC.®

As of June 1, 2017 Anthony Liftgates has begun consolidation of the ATU and AST Series product lines.

The ATU Series will be retired. **All premium features, once exclusive to the ATU model line, are now available on the AST Series**, including standard dock bumpers, and several platform configurations.

As the ATU series is phased out, please note that any ATU order placed after August 1, 2017 will be fulfilled with its equivalent AST model, unless otherwise stated.

This consolidation provides more value to customers, and helps to ensure selecting the right Anthony Liftgate is simple, as our product line continually evolves to serve the needs of today's transportation industry.

ANTHONY TUCKUNDER™ MODEL LINE			
Before June 1, 2017		After June 1, 2017
