HOW DOES IT WORK?

With one touch of a button on a remote control, a driver can activate the liftgate, making it ready to use. With a second touch, liftgate operation is disabled.

To find out more contact,
Anthony sales at (800) 482-0003!

KEY FEATURES

- Remote control shutoff allows drivers to disable the liftgate while performing a delivery
- Power indicator light displays activation status
- Audible "chirp" announces activation status
- Timed shutoff disables the system automatically with non-use
- Potted control module and weather-tight connections are designed for life on the road
