

# AST-L IS NOW MORE COMPACT

Better fit on low bed trucks!

## 1. POWER UNIT RELOCATED

- Moved to curbside, outer frame
- Easier access when space is limited under vehicle
- No interference with fuel tanks on some chassis

## 2. WIDER FRAME

- Adaptor frame width increased from 42" to 48" to accommodate more frame widths

## 3. ARM LENGTH REDUCED (3")

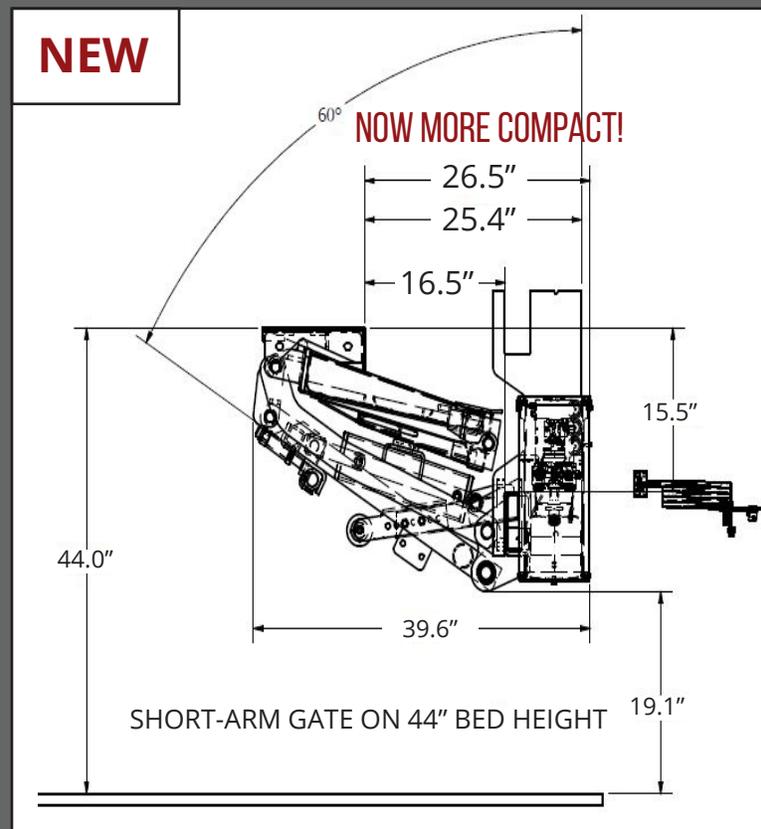

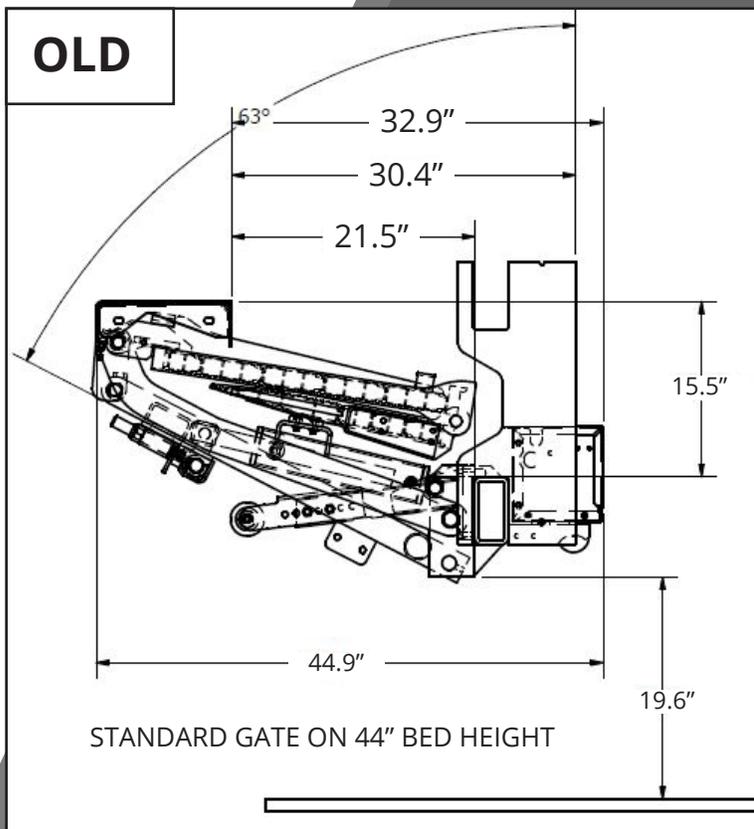

- Requires up to 5" less clearance forward of body rear edge
- No change in bed height range

## 4. HIGHER CAPACITY

- Increased from 1,800 lbs. to 2,000 lbs.
