

Power Unit and Battery Enclosures fabricated from Stainless Steel.

Stainless steel enclosures are now standard on all Tuckunder[™] and Magnum Railtrac[®] models.

All are precision laser cut, formed to shape and assembled with stainless steel rivets.

They add beauty and durable protection of hydraulic power units and auxiliary power batteries.

For more information about our Stainless Steel Enclosures or any other quality standard feature, call Anthony Customer Support at (815) 842-3383 or fax us your request at (815) 844-3612. Be sure to visit our web site at www.anthonyliftgates.com and check out our on-line parts and service manuals.
