

Two-Part MRT Power Unit

New Magnum RailTrac® Power Unit Offers Lighter Weight & Better Access to Valves and Motors for Servicing:

Overall Weight – Our new power unit box and battery box arrangement weighs 150 lbs. less than previous single enclosure.

New Cover Design – Removable covers provide full access to both power unit and batteries for easier checks and adjustments.

Accessibility – Pumps and motors have been repositioned for easy access and adjustment.

Hydraulic Reservoir – Clear-view level check is located on hydraulic tank; drain plug on bottom of fluid reservoir allows easy and complete draining of fluid.

Power Cut-Off – Master switch is located on the outside of the power unit enclosure.

Weather Protection – Weather stripping surrounds each cover to completely seal both the power and battery enclosures; heat shrink wire connections are used throughout.

To learn more about our new MRT power Unit, contact us at 1-800-482-0003 or through our website at www.anthonyliftgates.com.
